

## **"A Better Place"**

Sometimes our minds may wonder, what's in  
store for us one day.

When God's angels call upon us and help  
us fly away.

It's to **"A Better Place"**

It's said that love ones will greet us,  
as they open up the gate.

Oh, what a joyous time it'll be, I know  
you won't be late.

It's to **"A Better Place"** .

My grandma always told me she'll see me  
when she's free,

Of all the pain & suffering, how happy it  
will be.

It's in **"A Better Place"**

Thou tears may fall and hearts may hurt  
as you grieve for those you love,

But remember that God knows your pain as  
HE guides them from above.

It's to **"A Better Place"**

The Bible tells of streets of gold and  
praises all day long,

We'll see our King and feel His love, His  
comfort keeps us strong.

So to you I say just think of times when  
you laughed and smiled together,

You crawled, you walked, and you survived  
it all, including stormy weather.
